Highlights

ProMix blending technology
The Philips handblender ProMix thechnology was developed together with the prestigious Stuttgart University. It is an advanced technology for more consistent and faster blending. The unique ProMix blending technology of Philips hand blenders uses a triangular shape to create an optimal flow and gives maximum performance making silky smooth soups and smoothies.

Anti-splash blade guard
The special wave shape in the bottom part of the handblender blending bar garantees no splashes or mess while you blend.

Mixer accessory with 2 beaters
This mixer accessory or double whisk for the Philips hand blender has 2 beaters or whisks. It can even make cake batter. The mixer accessory helps you to mix, whisk larger quantities faster and with more volume than the single whisk or by hand. You can prepare cake batter, sponge cake, muffins, cream, eggs and more.

2-button release system
With the 2-button release system of the Philips handblender it is easy to remove the blending bar for easy cleaning.

Powerful 550 Watt motor
Powerful 550 Watt motor to handle a variety of ingredients.

Compact chopper accessory

With the compact chopper accessory of the Philips hand blender you can chop herbs, nuts, cheese, chocolate and onions.
